A mobile-friendly version is in development.

**Start by choosing a base color** that matches the main colors from your tail(s) & accessories.

Here is an example in blue. There is textural detail, and shadows/highlights from the form of the ear, but there are a number of customization options available to give your ears more “pop” and more closely match the merfolk look you are going for. These are fully explained in this guide.

## Customization Options

These are optional and can be combined to create a variety of cool looking ears!

Secondary color

Accent color

Fade

Tips

Radial Strips

Freckles

Koi spots

We understand this is a lot of options and it can be kind of confusing! Playing around in Mersona Maker for a while will help. Feel free to check out the recommendations & examples below.

**Our recommendation:**

Try a **secondary color + accent color combination**. This gives you 3 colors without committing to a marking pattern, for a cool and versatile look.

Here is an example using the “aqua” colors.

**Base color:**

- aqua-pastel 

**Secondary color:**

- aqua-dark 

**Accent color:**

- aqua 

Here are more examples with different color schemes:

**Base color:**

- purple-plum 

**Secondary color:**

- blue-bright 

**Accent color:**

- pink-purple 

**Base color:**

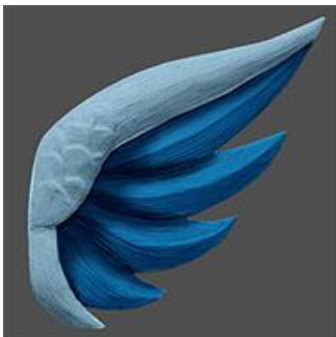

- green 

**Secondary color:**

- white

**Accent color:**

- orange 

**Base color:**

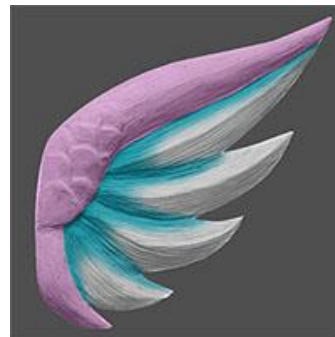

- blue-pastel 

**Secondary color:**

- blue-bright 

**Accent color:**

- blue-dark 

**Base color:**

- pink-pastel 

**Secondary color:**

- white

**Accent color:**

- aqua 

## Color Fade

A smooth transition from one color to the next, for an affordable but elegant look.

Bright-blue to purple-plum

Pink to blue

Purple to blue-bright

Blue-bright to blue-dark

Light flesh to pink

Pink-purple to purple-dark

Green-yellow to blue

Aqua to aqua-dark

Green-pastel to aqua

Aqua to purple-plum

Orange-bright to purple-dark

Green to aqua-dark

The color fade can also be airbrushed over the secondary and/or accent colors:

**Base color:**

- pink-pastel ■

**Secondary color:**

- white

**Accent color:**

- aqua ■

**Fade color:**

- purple ■

**Base color:**

- aqua ■

**Accent color:**

- aqua-pastel ■

**Fade color:**

- aqua-dark ■

**Base color:**

- purple-plum ■

**Secondary color:**

- pink-purple ■

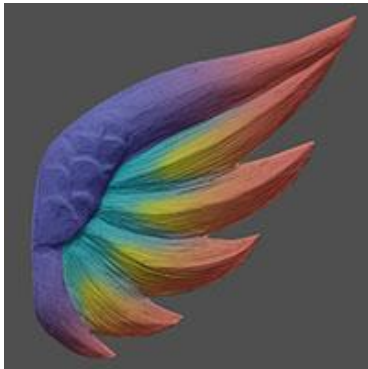

**Fade color:**

- purple-dark ■

You can even build a rainbow with just primary, secondary, accent, and a fade:

**Base color:**

- purple ■

**Secondary color:**

- aqua ■

**Accent color:**

- green-yellow ■

**Fade color:**

- orange ■

If you're looking to match markings on your tail, there are a few options available.

After you've decided what your ears look like in Mersona Maker, click the "Ready to BUY!" button:

This will redirect you back to the product page on the website. The options available on the product page mirror what's in Mersona Maker. The page will be filled out with criteria you input using Mersona Maker including a game generated code. **DO NOT ALTER THE CODE** which contains necessary information about the chosen colors and markings. Invalid, missing, or altered codes will cause delays.

- **If possible, please attach a snip/screen shot of the ears you built in Mersona Maker!** This will help confirm order details are correct, and it will provide a guide to work from when painting your ears.
  - Note: There is no screen shot function available in Mersona Maker at this time. You'll need to use print screen key or snip-it tool on your computer to save an image for upload here.
- Double check that everything looks correct, add to cart, and check out! We'll be in touch with you about order status and ship date.

As a reminder, if what you're looking for cannot be built via Mersona Maker we do offer completely custom ear designs. There is a separate product for this on the website: ["Mermaid Ears – Custom Design"](#)

Thank you so much! We look forward to making you the best merfolk ears!
